Scientific Research Writing and Patent Filing (SRWPF-2021)

under the program of MoU between the Department of Zoology of the Late Ramesh Warpujkar Art, Commerce Science College, Sonpeth, Dist. Parbhani (M.S.), Affiliated to S.R.T.M. University, Nanded; Kalikadevi Arts, Commerce and Science College, Shirur (Ka.), Dist. Beed, Affiliated to Dr. B.A.M. University, Aurangabad and Dadapati Rajale Arts, Science and Commerce College, Adinathnagar, Tal. Pathardi, Dist. Ahmednagar, Affiliated to S.P.P. University, Pune.

Report of Webinar

The department of Zoology decided to organize the one day National Webinar under MoU on Scientific Research Writing and Patent Filing to create awareness about finding gaps in the existing literature, doing quality research, reproducibility of results, how to convert the work into a good research paper, publishing it in a reputed journal, how to choose a journal, and ethics in publishing and give a view of the patent filing procedure in India and also give them hands-on experience on drafting a patent.

Due to continuing COVID-19 restrictions on travel, we have decided to hold SRWPF-2021 online on 05th October 2021. The webinar which consists of invited talks and free discussion will be an opportunity for students, researchers academicians, and practitioners to get together and exchange their ideas and experiences through online mode.

Dear Colleagues,

It gives us an immense pleasure to invite and welcome you to participate in the One Day Multidisciplinary International e-Conference On "**Changing Perspectives of Education**" organized by Home Science and English Departments of Kalikadevi College Shirur Kasar and KSK College Beed and your esteemed presence is cordially solicited.

Higher education institutions are investing in increasing resources, in order to attain constructive perceptions among their stakeholders. The motive of higher education has been transformed through time in different ways. Higher education is made up of numerous independent and various institutional types that are operating to support and maintain internal organizational self-interest to serve broader societal objectives. Higher education also serves a wide array of students with differing needs, resources and capacities. Problems and opportunities appear quite different from these various perspectives, and actions and interventions can yield different outcomes across different groups of institutions, students or faculty. Today in this digital era higher education institutions (HEI) are continuously striving to develop and deliver impactful educational programs. At the same time, it has become essential that they should continue to fulfill their mission to educate students in basic applied subjects and equip students with new skills. So it is necessary that the subsequent curricular reforms should be transformative in nature, preparing students to tackle the challenges of globalization, unemployment and vanishing professions. Because of transformation in education system during the Pandemic of Covid 19, through this conference we are trying to identify the gaps and highlight the facts about the perceptions of universities and institutions, pinpointing the dimensions that are influencing the education system. We are trying to determine whether the degree of influence differs when considering the perspectives of different stakeholders or individuals from different geographical areas.
