19.	The overall quality of teaching-learning process in your institute is very good.	28.2%	56.1%	11.1%	3.2%	1.4%

20.	Necessary equipment and grounds are available for the players	25.4%	57%	11.1%	3.2%	3.2%
	Total Percentage	25.51	54.64	14.5	3.20	2.15

• **Analysis of Students Satisfaction Survey**

In academic year 2023-24, we have taken student satisfaction survey through Google form.

In this we have collected responses regarding teacher performance, library, college infrastructure, curricular and co-curricular activities and non-teaching performance. A list of 20 questions was prepared related to different parameters.

Almost all the students respond positively as 55% to 60% scores were given as the students agreed for questions asked regarding their satisfaction for different variables. The students have strongly agreed for the same variables in the range of 25% to 30%. Less than 15% students were neutral and few students disagreed and strongly disagreed for some variables.

As far as the role of the teachers is concerned, 60 % response is seen positive. Students had responded that teachers complete their syllabus on time and they use modern teaching techniques as per the need of the students. Teachers are punctual and fully prepared, they interact with students in the class, timely they motivate the students, and they behave with students in a friendly way.

Analysis and the document has been submitted to principal. That was further discussed in the meeting and was decided to cover the loop holes in the related areas.

We have provided the link of Student Satisfactory Survey Google form to students through the What’s App groups.
